FELTPEN FADEOUT (FF)

A world first – removes permanent felt markers. It's also highly effective in removing tag ghosts and shadows. Great for white board surfaces, as well. This revolutionary product works on most painted surfaces, plastics, pre-cast concrete, granite, terrazzo, stone and marble. People cannot believe what they are actually seeing in front of their eyes – and neither will you. We guarantee it!

HERITAGE GRAFFITI REMOVER – FOR DELICATE, OLD BUILDINGS

Heritage Graffiti Remover was developed over 30 years ago for removing graffiti from historic and other sensitive surfaces. Using Heritage means no sensitive surface damage caused by over zealous blasting systems or aggressive chemicals. It is primarily used on stone, brick and masonry surfaces. Heritage only needs low pressure rinsing. Its free rinsing properties ensures that no insoluble salt residue is left after use. Heritage is approved world wide by many Historical Societies and Conservatories. Ask for details.

TRANSGEL - FOR THICK OLDER PAINTS

The really ‘safe’ gel remover designed originally for use in the transport industry. Use this friendly gel without worrying about hand and skin burns. Removes hard sun-baked murals on trains left in yards, with ease. It’s also highly effective on thick building murals and fully set tags on other more conventional surfaces. Finally, it is safe and effective on asphalt, tarmac or bitumen surfaces, unpainted metals and pre-painted steel fencing.

WORLD'S BEST GRAFFITI COATING

Protects natural building surfaces against graffiti, pollution and grime. This amazing product is a virtually invisible sacrificial ANTI-GRAFFITI Coating. It's made from wax polymers that act as a building protection product. It's ideal for delicate historic building structures or surfaces which have incurred previous damage.

The Coating flexes with the ambient temperature and is durable and UV stable. The end result is a long lasting invisible protective barrier which behaves like a 'living' skin reinventing itself (almost daily) in the sun, rain and wind. One critical advantage of this, is that no water vapors are ever trapped and consequently walls 'breathe' normally, with moisture allowed to pass during these times.

World's Best Graffiti Coating can be applied to almost any exterior building surface. It will protect your property from all types of graffiti, grime, pollution, sea and salt spray for up to 10 years.

After 30 years of experience with 'coatings', we realized that this product was the most versatile, durable, and easily removed coating available – far and above any other 'try hard' products in the building industry.

We have now field tested this coating for 12 years. It is non-toxic, and biodegradable, making it a pleasure to apply. If necessary for whatever reason, it can be easily removed either with Bare Brick, Stone & Masonry Graffiti Remover or a hot water pressure washer.

Coverage rate is approximately 200 square feet per gallon on porous surfaces (including 2 coats) or approximately 800 square feet per gallon on hard impervious surfaces where only one coat is required.
