### Land Acknowledgement

The Toronto Islands are the traditional territory of many nations, including the Mississaugas of the Credit, the Anishnaabeg, the Chippewa, the Haudenosaunee and the Wendat peoples. They are covered by Treaty 13 signed with the Mississaugas of the Credit, who called the Islands Mnisiing, meaning "on the islands", and for whom they were an important place for both healing and ceremony. We also acknowledge the importance of the land and water that flows through and across this territory and the importance of reciprocity and giving back to the land and water through stewardship. The City of Toronto recognises the significance of the Islands to Indigenous communities and is committed to building relationships and working with them to ensure the Islands are protected and cared for so that they can be enjoyed by many generations to come.
